# Company Profile

Stamford Sport Wheels (SSW) is a subsidiary of Stamford Tyres Corporation Limited (STCL), a global tyre and wheel specialist, established in the 1930s and head office in Singapore. The expertise lies in our international distribution competence. STCL is listed on the main board of the Singapore Exchange Securities Trading Limited (SGX-ST).

SSW, a manufacturer of light aluminium alloy wheels, is established in 2004. With the in-house design and engineering teams, we can produce an exceptional line of wheels that offer exciting style, look and performance, from size 13" to 24" available for passenger car, SUV and light truck (4x4). Besides domestic market our main customers covers 7 continents which includes Europe, North America, Asia, Africa, South America, Arctic and Australia.

We have both Tilting Gravity and Low Pressure Casting machine in our facilities. Together with a modernized painting line, housed in a clean environment with dust free spray booths, this allows us to achieve more consistent and flawless finishing. Under stringent quality control process, SSW's plant is certified by TUV Rheinland, Germany for ISO 9001:2008 and TS16949:2009 since year 2006 and our production of alloy wheels has been certified by JWL / JWL-T (Japan), SNI (Indonesia standard), GOST (Russian standard), and TSE (Turkish standard).

SSW offers the highest quality alloy wheels at an affordable price level. We continuously conduct market research on the latest trends, best materials and newest production technology to ensure that as a customer you are treated to the latest innovation in the wheel industry. Lastly, all our SSW wheels go through the strictest safety tests and passed the latest standards that will give the most discerning user a peace of mind.

**ISO 9001:2008 & ISO 16949:2009**  
- Manufacturing of Aluminum Alloy Wheels for the automotive industry without product design and development, certified by TÜV Rheinland

**JWTC**  
- Light Alloy Automotive Wheels (Teign Council) All testing equipments and standard are made in accordance with JWTC (Technical Standard)

**GOST (Russia)**  
- Technical Standard maintained by Euro-Asian Council & CIS for Standardization, Metrology and Certification

**TSE (Turkey)**  
- Certificate of Conformity to Turkish Standards  
**SN Certificate**  
- is the only standard nationally

# TECHNOLOGY

## PLASMA HIGH VACUUM COATING TECHNOLOGY

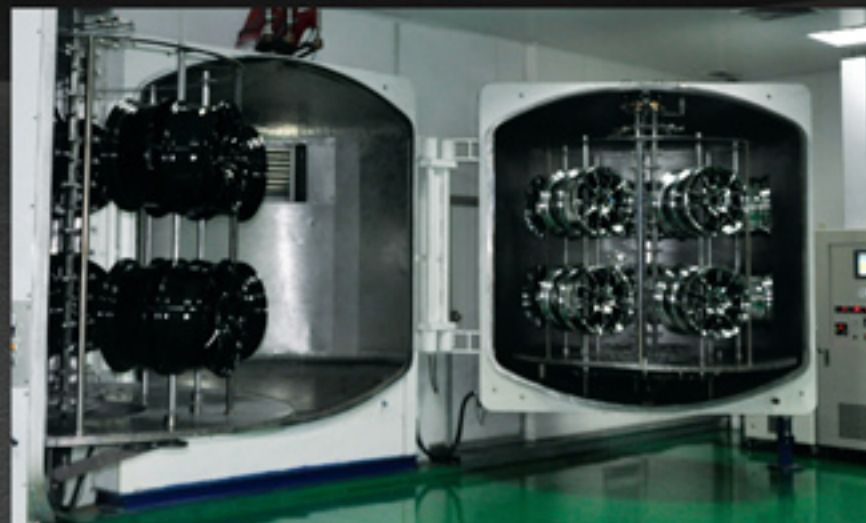

Stamford has invested a brand new independent state of art Plasma high vacuum coating technology facility in addition to their chrome free paint line. With this facility, wheels are coated with brilliant sparkling finishes of either "Stainless Metallic Chrome" or "Black Metallic Chrome" to achieve a higher level of finishing. Plasma high vacuum coating technology apply Physical Vapor Deposition (PVD). It is a process in which solid "target" material is vaporized and then deposited on to wheels to created a film of sparkling effect. The high vacuum coating machine creates plasma during the deposition process in the low rough vacuum environment. A high voltage is being used to produce a glow discharge to form the plasma, achieving surface finish of the highest quality.

Black Metallic Chrome

Stainless Metallic Chrome

Black Metallic Chrome / Full Polish

▲ This technology requires a clean room environment to provide the most uniform film surface finish to the wheel. This process enables almost unlimited production coating on all type of surfaces and difficult to reach areas providing innovation color and class which will be a great value added to the product.

This handmade finishing process gives the owner of luxurious vehicle an additional option of "one of a kind" finishing that is unique to high-end European sport cars.

## BRUSH FINISHING

## ELECTRO DEPOSIT PAINTING (TWO TONE)

This latest innovative coating technology will enable the most demanding user another option combining superior production technology and fashionable dual tone colors. Ideal for trendsetters and those who love to be hip and fashionable.

# INTERNATIONAL TRADE FAIR/EVENT

## GENEVA INTERNATIONAL MOTOR SHOW 2013:

The 83rd International Motor Show held in Geneva this spring attracted some 690,000 car fanatics. According to an independent survey carried out on 1,034 visitors, most were enthusiastic working males who love cars and regularly attend the event. The 84th Geneva Motor Show will take place between, and the event's organisers have just opened up registration to would-be exhibitors.

## SINGAPORE TYRE EXPO 2013: SINGAPORE

STAMFORD TYRES took part as an exhibitor in Tyrexpo Asia 2013, an event held at the Singapore Expo and attended by trade visitors from 97 countries. All this is good news for Stamford Tyres, which has a tyre and wheel distribution network in more than 30 countries. Its core business of tyre distribution serves four principal brands – Falken, Dunlop, Continental and Toyo Tyres. It has product development capabilities and proprietary brands – the Sumo range of tyres and SSW light alloy wheels, which are sold globally.

## THE 2012: SEMA Show-Las Vegas:

The SEMA Show is the premier automotive specialty products trade event in the world. It draws the industry's brightest minds and hottest products to one place, the Las Vegas Convention Center. In addition, the SEMA Show provides attendees with educational seminars, product demonstrations, special events, networking opportunities and more.

## CITEXPO 2014 : SHANGHAI, CHINA

The 12th China International Tire Expo (CITEXPO), being Chinese largest and most important wheels exhibition, had kicked off last 10-12 September 2014. Stamford Tyres, a regular exhibitor in CITEXPO once again presented their further extended range of Sumo Firenze tires, alongside with alloy wheels from Stamford Sport Wheels (SSW) and Soleil.

## REIFEN 2014 : MESSE ESSEN, GERMANY

once again impressively confirmed the leading role of the fair as the most important meeting of the tyre industry. In an exhibition area covering a total of 60,000 sq.m. top-class companies presented their products and services for new tires, the tyre trade, tyre and chassis technology, retreading, vulcanization and workshops.

## AUTOMECHANIKA 2014 : SOUTH AFRICA

Automechanika is the world's leading trade fair for the automotive industry. Automechanika offers you a unique spectrum of products from the fields of automotive parts, car wash, workshop and filling-station equipment, IT products and services, accessories and tuning. Around 50 per cent of the exhibitors at the last event came from outside South Africa and it presents a Gateway to Africa.
